Presentation: The Basics of Backflow Prevention and Cross-Connection Control

Presenter: Sean Cleary, IAPMO VP of Industry Programs and BPI Operations

The seminar will cover how and why backflow occurs. We will look at the hydraulic conditions in modern plumbing and mechanical systems and how temperature and pressure changes factor into cross-connection control. The proper selection and installation of backflow prevention methods, devices and assemblies will be addressed along with testing requirements for this vital protection.

Registration Deadline: 5:00 pm, August 13, 2021 - Limited Seating Must RSVP to Charlie Campbell via phone or text to (785) 232-9321.

This is a 2-hour Plumbing/Mechanical CEU class, accredited by the City of Topeka and is accepted in most jurisdictions for the yearly state mandated CEUs to maintain your license.

This class will be good for Plumbing/Mechanical CEUs.
You will earn 2.0 CEUs upon completion of this course.
