**Chapter Business Meeting:**
- New Chapter Business
- Thermoelectrics  
& Water Treatment

**Presenter:** Charlie Campbell, Topeka Winsupply

Why is the humidifier pad full of white powdery flakes during an HVAC service visit? When you drain a water heater, what is the gel like substance? What causes rotten egg odor with well water? How does that adversely affect the humidifier in the winter, and the remaining plumbing system all year? How important is understanding water quality for boiler systems, humidifiers, and general plumbing fixtures? What is the difference between co current and counter current regeneration? What is Reverse Osmosis? Can you feed a humidifier with R.O. water? How does an R.O. system work? How do you troubleshoot an R.O.?

*Come & find out the answers to this, and more, on October 19th.*

**Registration Deadline:** 5:00 pm, October 15, 2021 - Limited Seating Must RSVP to Charlie Campbell via phone or text (785) 232-9321.

This is a 2-hour Plumbing/Mechanical CEU class, accredited by the City of Topeka and is accepted in most jurisdictions for the yearly state mandated CEUs to maintain your license.

**This class will be good for Plumbing/Mechanical CEUs.**  
You will earn 2.0 CEUs upon completion of this course.
